

# GREEN LINE 76

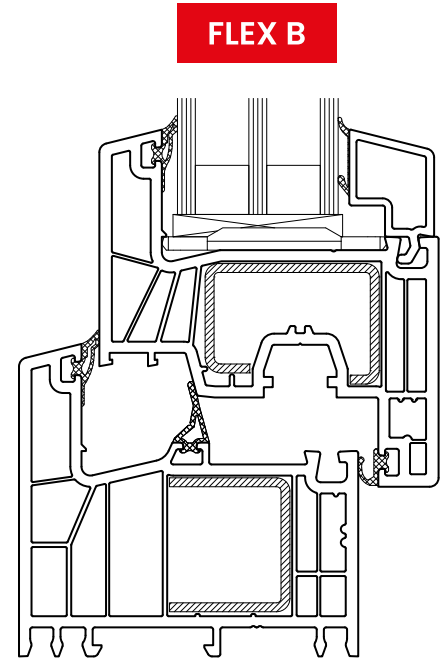

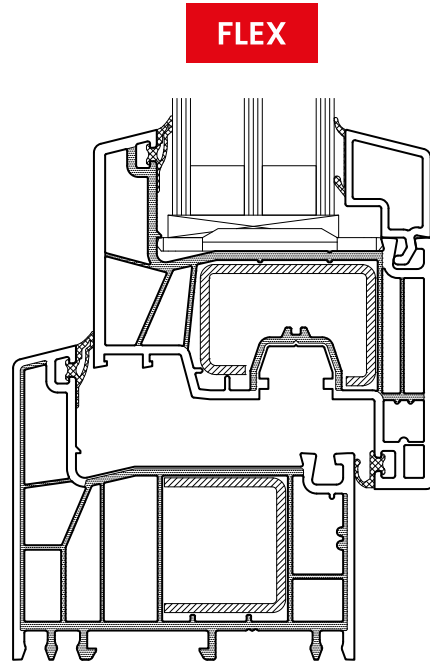

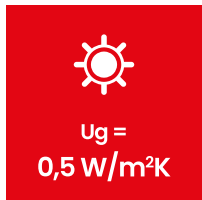

NATURAL SELECTION  
**STYLISH BEAUTY**

# A NEW DIMENSION OF PERFECTION

The **Green Line 76** is an innovative and ecological 6-chamber window system with exceptional design and high technical parameters.

The intelligent arrangement of **FLEX B** seals enhances thermal and acoustic insulation, guaranteeing maximum protection against noise, moisture, and cold.

## What you gain:

The use of environmentally friendly materials and technologies that minimize CO<sup>2</sup> emissions makes **Green Line 76** the perfect choice for those who want to have a real impact on **protecting our planet**.

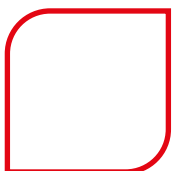

Excellent thermal insulation and intelligent placement of **FLEX B** seals minimize heat loss in the building, protect fittings from moisture, and provide **an effective acoustic barrier**.

Thanks to the optimized parameters of **the Green Line 76**, it ensures **excellent stability**, enabling the construction of larger glazing areas, thereby increasing access to natural light in rooms.
